Investors Bank was founded in 1926 and today is one of the largest banks headquartered in New Jersey. With more than \$25 billion in assets and a network of over 150 retail branches throughout New Jersey, New York City and Long Island, Investors delivers a broad range of financial services and products tailored to the needs of its retail and business customers.

Led by a senior management team committed to serving others, Investors continues to grow, while remaining focused on its roots as a local community bank. As one of the bank's four core values, community is about caring for its customers, employees and the people and businesses in the local neighborhoods it serves. Investors' team members volunteer their time and talents, while the bank and its foundations provide the financial support to help businesses and communities grow and prosper. Investors is a model of what a true community bank should be – a good corporate citizen with a tradition of “giving back” at the heart of everything it does.
